

## Villas Venado 2BR Spacious Beachside Condos

Villas Venado is an exceptional beachside condominium development with a dream-come-true location. This cozy gated community, which includes just eight condos, is nestled just 400 yards (375m) from a pristine, secluded and breathtaking beach on Costa Rica's Pacific coast. It is also just 1.25 hours from an international airport, 30 minutes from endless amenities (in Playa Tamarindo) and only 15 minutes from the world-famous surf breaks at Playa Negra and Playa Avellanas. Villas Venado condos feel like true homes, with enormous spaces where it counts most. The open kitchen/living room and expansive outdoor terrace make them comfortable residences where one could live permanently. Built using ultra-solid concrete construction and finished with high-end hardwood cabinetry, the condos will stand the test of time. Exquisitely-manicured gardens fill in the common areas and surround the community's large pool. The nearest beach, an undiscovered treasure called Playa Honda, is a small, idyllic slice of paradise spanning less than 300 yards and infrequently visited by outsiders. There are few places so "Pura Vida" on Earth and living close by would be a life-changing experience.
