Gorgeous Coveted Black Stallion Hills Lot Near Tamarindo

Black Stallion Hills is just minutes from the center of Tamarindo and an hour to the Liberia International Airport. It has become the 'goto' place for families to set their roots here in the area. they find it is just close enough to all the hustle and bustle, infrastructure, doctors, dentists, and everything else that Tamarindo has to offer but it is just far enough away to enjoy a tranquil lifestyle within a real community of mostly expats from around the world. Within the community they have horse tours, zip lines, and almost daily barbecue dinners at the communities center. The lot is an estate lot surrounded by nature. It is just a minute to the main entrance and the paved road to all points.

Nearly the entire 1.25 acres are flat and buildable. Here, you can construct 15% of the property and go two stories. 15% is about 800ft² on the first floor. You are also welcome to build up to homes plus garage, pool, and anything else that you want as long as it fits within those 8000ft². The home has a gorgeous sunrise view. It also sees a lovely mountain. There are many native trees here on the property as well and when we went to fly the drone over the property we saw parrots, jays, and a half dozen other bird species in less than ten minutes.

This property has all the infrastructure including water, electric, and internet.
